CREATURE DESIGN

Wellington

A sleek and cost-effective, interior fit-out for this prominent brand and design agency in central Wellington.

Our approach enhanced the original features of the heritage building, allowing it to 'breathe'. A simple, black ply box was inserted to the centre of the space, forming the meeting room and dividing the office and client hosting areas from the back of house—bathroom, kitchen and dark-room.

Material selection included polished concrete floors and black form-ply walls. Elegant timber, double-glazed windows were added and the building was seismically strengthened.
